LEONORA KRAJINA

PERSONAL INFORMATION

PERSONAL ADDRESS: Kraków, Poland
EMAIL: leonora.krajina@doctoral.uj.edu.pl
PHONE NUMBER: +48 798 528 455
DATE AND PLACE OF BIRTH: 28 June 2001., Zagreb, Croatia
LANGUAGES: English (fluent), Croatian (native)

EDUCATION

PhD in Mathematics October 2026 - current
- 4-year full-time position in the field of several complex variables
- Supervisor: Włodzimierz Zwonek (JU)
- Jagiellonian University, Kraków, Poland

M.Sc. in Mathematics August 2024 - August 2026
- Joint programme in Mathematics with Stockholm University and Royal Institute of Technology (KTH)
- Stockholm, Sweden

B.Sc. in Mathematics August 2020 - July 2024
- Department of Mathematics, Faculty of Science, University of Zagreb
- Zagreb, Croatia

Gymnasium of Science and Mathematics September 2016 - August 2020
- The most competitive and demanding high school programme in Croatia
- Gymnasium Pula, Croatia

PUBLICATIONS/PREPRINTS

Higher-dimensional singularities of rational inner functions (arXiv:2609.26805) September 2026

RESEARCH INTERESTS AND SKILLS

· Complex analysis in several variables and complex geometry
· Differential geometry and mathematical general relativity

Selected courses taken: Function Theory of Several Complex Variables, Differential Geometry, Advanced Complex Analysis, Advanced Real Analysis I/II, Chaotic Dynamical Systems, Advanced Algebra, Topology

Further readings: *Complex geometry* by Daniel Huybrechts (still reading)
Principles of algebraic geometry by Griffiths and Harris (still reading)
Semi-Riemannian Geometry with Application to Relativity by Barrett O'Neill

Skills: LaTeX, Mathematica, MATLAB, C/C++

PROJECTS

Master's thesis in several complex variables January 2026 - August 2026
- Topic: Higher-dimensional singularities of rational inner functions
- Advisor: Alan Sola, Stockholm University
- 30 ECTS Degree project

INTERNSHIP/WORK EXPERIENCE

Lecturer at a Mobile Planetarium October 2023 - June 2024
- Main lecturer
- Education of elementary and high school students in astronomy through interactive lectures in the largest portable planetarium in Croatia
- Website: https://www.odiseja.hr/
- Reference: Petar Poljak (info@odiseja.hr, +385 98 213 107)

Software Engineering Internship July 2022 - September 2022
- Developing and perfecting the code for a genetic algorithm arranging customer service shifts in different timezones
- One of the 54 interns that were chosen from 1068 applicants
- Website: https://www.infobip.com/

Database Administrator June 2018 - August 2018; July 2019 - September 2019
- High school seasonal job where I worked at updating data for a tourist agency, over the course of two summers.
- Website: https://uniline.hr/hr

AWARDS

STEM Games Technology Arena 21 May 2022
- First place
- Part of a team of four people competing in four-day long competition in coding and problem-solving

CONFERENCES

Complex Analysis and Operator Theory: a Series of 3-Hour Lectures September 7-11 2026
- Presented a poster titled: "Higher-dimensional singularities of rational inner functions"
- Dipartimento di Matematica "Federigo Enriques", Università degli Studi di Milano

VOLUNTEERING/ MEMBERSHIPS

Master in Mathematics Seminar Organizer January 2025 - June 2026
- In charge of biweekly seminars by and for mathematics students at Stockholm University and KTH
- Advocating needs of master of mathematics students
- Events: yearly PhD Cafe, mental health events, social events for students; board game and bar nights, welcome events and tours for new students
- Website: https://sites.google.com/view/stockholm-masters-math-seminar

Proofreader November 2022 - November 2023
- Proofreader of articles for the student news page Studentski.hr
- Website: https://studentski.hr

ESN member November 2022 - November 2023
- Part of the Buddy program
- Website: https://www.esn.hr
